#### **In Summary**

To consider an application to keep 5 cats at 63 James Street Goomalling by Veronica Vilczko.

#### **Background**

Veronica Vilczko has made application to the Council to keep 5 cats at the above address. There has been an ongoing dialogue with Council's Ranger and I have spent a considerable amount of time in dealing with Ms Vilczko with regard to the litter of kittens that the two youngest animals that are the subject of this application were a part of.

A significant amount of time has been spent in initially convincing Ms Vilczko to de-sex the kittens, in rehoming the other members of the litter and to go through the process of putting forward this application.

Council's Ranger inspected the premises on 22<sup>nd</sup> May 2023 and this report has been produced from that inspection.

### Housing

Suitable

Not Suitable

Means of housing: All cats have access to sleep wherever they want in the house. The cats are also outside cats. They are let outside whenever the applicant wishes.

Bedding: Wherever they can find bedding in the house. The Applicant explained the cats like to sleep on the kids beds.

Water Supply: There was one water bowl in the kitchen area.

### Condition of existing cats

Suitable

Not Suitable

Details: All the cats were very friendly towards each other and myself. They were in good condition.

Ranger Notes: I believe the living conditions for all the cats aren't suitable for five cats. The five cats only had access to two litter trays between them all.

The house was a mess throughout. Ranger Inspections are set up days in advance to allow the applicant to organise their animal's area to an acceptable appearance. I believe there was a lack of care taken on this day.

**RANGER RECOMMENDATION:**

That Council NOT APPROVE the application for five (5) cats to be housed at 63 James Street, Goomalling.

**CEO COMMENT**

There seems to be an assumption with a number of people within our communities that you can keep as many animals as you like and that there is no need to provide any particular level of care for them. Whether this is for cats and providing specific areas for them to be, sleep and play, sufficient facilities such as adequate litter trays, sufficient drinking water and feeding areas or set acceptable areas for their litter trays not in normal human living areas.

The same can be said of dog owners not providing adequate shelter for their animals, providing inadequate fencing to keep them contained or poor water and feeding facilities. This also comes with many not seeming to care whether their dogs are on a leash in public or not.

With regard to this application the house is insufficiently set up for the resident to keep five cats. The house was messy, the cats had no specific area for their litter trays away from the human specific areas and would need to find their way through clutter which characterised the residence. In good conscience I could not recommend that this residence was in a fit state to house five cats.

**Voting Requirements**

Simple Majority

**OFFICERS' RECOMMENDATION**

That the Council:

DOES NOT APPROVE the application for five (5) cats to be housed at 63 James Street, Goomalling.

KEY INFORMATION

Prepaid rates are, until the taxable event for the rates has occurred, refundable at the request of the ratepayer. Rates received in advance give rise to a financial liability. On 1 July 2020 the prepaid rates were recognised as a financial asset and a related amount was recognised as a financial liability and no income was recognised. When the taxable event occurs the financial liability is extinguished and income recognised for the prepaid rates that have not been refunded.

**SIGNIFICANT ACCOUNTING POLICIES**

All assets are initially recognised at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the local government includes the cost of all materials used in the construction, direct labour on the project and an appropriate proportion of variable and fixed overhead. Certain asset classes may be revalued on a regular basis such that the carrying values are not materially different from fair value. Assets carried at fair value are to be revalued with sufficient regularity to ensure the carrying amount does not differ materially from that determined using fair value at reporting date.

**KEY INFORMATION**

At inception of a contract, the Shire assesses if the contract contains or is a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. At the commencement date, a right of use asset is recognised at cost and lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Shire uses its incremental borrowing rate.

All contracts classified as short-term leases (i.e. a lease with a remaining term of 12 months or less) and leases of low value assets are recognised as an operating expense on a straight-line basis over the term of the lease.

#### KEY INFORMATION

##### Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

##### Employee benefits

###### Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the calculation of net current assets.

###### Other long-term employee benefits

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.
