**Purpose:**

To ensure landholders are compensated for gravel obtained from private pits.

**Policy:**

That Council continue to obtain gravel from owners throughout the Shire and the Shire will pay landholders three dollars (\$3.00) per cubic metre of gravel taken from private land for use on public works.

From time to time the Chief Executive Officer and Works Supervisor are authorised to pay a higher rate for gravel royalty payments to pit owners where suitable gravel for specific works requirements at the current rate is unavailable.
