

# POSSUM POST

SHIRE OF GOOMALLING

EDITION 2026-04

26-02-2026

This publication has been prepared and published by the Shire of Goomalling. Its purpose is to keep the Community and visitors informed of local events and activities. Publications will be issued fortnightly on a Friday and will be made available electronically via Shire website and links on our facebook page. Hard copies will be made available at Goomalling Post Office and The Village Grocer. **We welcome contributions from Community and Sporting Groups of 'goings on' in the Shire of Goomalling.** Shire of Goomalling will continue to publish the newsletter G'Day Goomalling on a quarterly basis.

## NEXT ORDINARY COUNCIL MEETING

**Mon - Fri 8:30am - 4:00pm \***

\*except public holidays

Please note the Shire office will be CLOSED for business during the below periods:

*Shire Administration will be closed 19 March 2026*

*from 8.30am to 9.30am*

*The next PDA Day is: 12 March 2026*

## SHIRE PRESIDENT INSPIRES YOUNG LEADERS AT SACRED HEART CATHOLIC SCHOOL

There was a buzz of excitement at Sacred Heart Catholic School this week as the Shire President, Cr. Julie Chester spent time with local students discussing youth engagement, community leadership and what it truly means to serve as an elected member of Council.

In an engaging and interactive session, students had the opportunity to ask questions about how Council decisions are made, what responsibilities come with being an elected Councillor, and the role of the Shire President in representing the community. From managing local projects to advocating for the Shire's future, the conversation gave students a real-world insight into local government in action.

The visit highlighted the importance of young people having a voice in shaping their community. The Shire President encouraged students to get involved, share their ideas and understand that leadership begins with caring about where you live. Sessions like this strengthen connections between Council and our youth, helping foster a sense of belonging, civic pride and the next generation of community leaders.

# GOOMALLING WAR MEMORIAL SWIMMING POOL 2025-2026 Season Opening

## OPENING HOURS

**Monday- Wednesday - Thursday-Friday**

6.30am - 7.30am - Lap Swimming Only

# drumMUSTER

## FRIDAY 27 MARCH 2026

### CONTAINERS MUST BE

- TRIPLE OR PRESSURE CLEANED
- CLEAN - NO CHEMICAL RESIDUE
- INSPECTED BY A DRUMMUSTER INSPECTOR
- LIDS MUST BE LEFT OFF
- METAL CONTAINER MUST BE PUNCTURED

**IMPORTANT:** stricter inspections will take place because there have been too many rejections when it came time for the contractor to process them – please make sure the drums are very well cleaned or you will have to take them home with you.

### BOOKINGS ESSENTIAL - 08 96291101

Book your place and advise number of containers to the shire office by

4.00pm Wednesday 25 March 2026

Shire Office 08 9629 1101

**drumMUSTER**

## Frequently asked questions

### What is drumMUSTER?

drumMUSTER is a recycling program for eligible, empty agricultural and veterinary chemical drums. It provides a way for farmers and chemical users to safely dispose of their drums in an environmentally responsible manner.

### Who runs drumMUSTER?

drumMUSTER is managed by Agsafe on behalf of participating chemical manufacturers. It is an industry-led product stewardship program designed to ensure agricultural and veterinary chemical drums are disposed of safely and responsibly.

### When did drumMUSTER start and how successful has it been?

drumMUSTER began in 1998 and has since collected and recycled more than 46 million drums, equating to over 48,000 tonnes of material. It is one of Australia's most successful product stewardship programs, helping protect the environment and support a circular economy.

### Why is recycling chemical drums important?

Recycling helps reduce the number of drums ending up in landfills or being disposed of improperly. It supports environmental sustainability and reduces the impact of hazardous waste on ecosystems.

### How does drumMUSTER work?

Farmers and chemical users can bring their empty, triple-rinsed, and lid-free chemical drums to designated collection points. These drums are then inspected for compliance and sent for recycling to be repurposed into new materials.

### Is drumMUSTER safe for people and the environment?

Yes. drumMUSTER ensures that chemical drums are thoroughly cleaned and handled safely before being recycled. This prevents drums from being burnt, buried, or dumped, protecting farm workers, communities, and the environment.

### Do I need to register before dropping off drums?

No registration is required. You can simply take your eligible, prepared drums to your nearest drumMUSTER collection site during its opening hours or scheduled collection event. Please note that some sites require bookings, so it's best to check with your local site before visiting.

### Where can I find my nearest drumMUSTER collection site?

You can find your nearest collection site by visiting the 'Collection site' webpage on Agsafe's website, which allows you to enter your location for the most convenient options.

### Is there a fee to use drumMUSTER?

No, there is no fee for users to drop off eligible drums at collection sites. The drumMUSTER program is funded by a fee for service paid by participating chemical manufacturers.

### What happens to the drums after they are collected?

Collected drums are recycled into useful products like wheelie bins, road signs, fence posts, bollards, and new chemical drums, reducing waste and environmental impact.

### How does drumMUSTER differ from ChemClear?

drumMUSTER is for the collection and recycling of empty, eligible chemical drums, while ChemClear provides a safe disposal pathway for unwanted or obsolete agricultural and veterinary chemicals. Together, they offer a complete solution for safe chemical and drum disposal.

## How often are drumMUSTER collections held?

Collection schedules vary by location. Some collection sites have regular hours, while others host specific collection events. Please contact your nearest collection site for their schedule.

## Can businesses or commercial operations use drumMUSTER?

Yes, drumMUSTER is available for both individual farmers and larger commercial operations, provided the drums are eligible and properly prepared.

## What type of drums are accepted by drumMUSTER?

drumMUSTER accepts eligible, clean, dry, and lid-free agricultural and veterinary chemical drums ranging from 1L to 220L, including plastic or metal drums. Drums must have the drumMUSTER logo to be accepted.

## How do I know if my drum is eligible for recycling?

Eligible drums will display the drumMUSTER logo. If you're unsure, you can check with your local collection site or contact drumMUSTER directly for clarification.

## How do I prepare my drums for drumMUSTER?

To make sure your drums are ready for recycling and safe to handle, please follow these steps:

1. Empty the drum completely into your spray tank or application equipment. Allow it to drain for 30 seconds.
2. Fill the drum one-quarter full with clean water.
3. Secure the cap and shake or roll the drum for at least 30 seconds so that the water rinses all inside surfaces.
4. Pour the rinse water into your spray tank and allow the drum to drain for 30 seconds.
5. Repeat this process two more times (for a total of three rinses). If there is still chemical residue after three rinses, repeat steps 2-4 until the drum is completely free of all chemical residue.
6. Remove the cap and dispose of it safely - lids are not accepted through drumMUSTER.
7. Clean the outside of the drum to remove any residue, then let the drum dry before taking it to your collection site.

## Why is triple-rinsing required for drums?

Triple-rinsing ensures that all residues are removed, which makes the drums safe for handling, recycling, and repurposing. It also helps protect those managing the recycling process and ensures compliance with safety standards.

## What happens if I don't triple rinse my drums?

If drums are not properly rinsed, clean, and free of lids, they may be rejected at the collection site. This is to protect the safety of site operators and ensure drums can be recycled without contamination.

## What should I do with the lids?

Lids are not accepted through drumMUSTER, as they are made from a different type of plastic that cannot be recycled in the program. Please remove them before bringing in your drums and dispose of them through your local council's recycling or waste service, depending on the facilities available in your area.

## What if I have bulk drums like IBCs?

drumMUSTER only accepts eligible drums from 1L to 220L that carry the drumMUSTER logo. For larger bulk drums such as Intermediate Bulk Drums (IBCs), you will need to contact the manufacturer or supplier for return or recycling options.

## Can I bring non-chemical drums to drumMUSTER?

No, drumMUSTER only accepts drums that held eligible agricultural and veterinary chemicals and carry the drumMUSTER logo. Other plastic or metal drums are not part of the program.

## What if my drum is not eligible for drumMUSTER?

If a drum does not have the drumMUSTER logo or is not an eligible chemical drum, it will not be accepted at a drumMUSTER site. You can consult with your local council or waste management service for other recycling options.

## How do I find out more information about drumMUSTER?

Explore the drumMUSTER section of the Agsafe website or contact our team for additional details, support, and answers to any additional questions you may have about the program.

## Effective rinsing guide

**1** Fill the drum to approximately 20 to 25 percent of its capacity with clean water. The amount must be sufficient to coat all interior surfaces during rinsing.

**2** Secure the cap and shake or roll the drum thoroughly for at least 30 seconds. This action ensures that the rinse water makes contact with all internal surfaces.

**3** Pour the rinsate into a spray tank or apply it to a paddock in accordance with the original product label's directions - allow the drum to drain for 30 seconds.

**4** Repeat steps 1 through 3 two more times, for a total of three rinses. If residue is still visible after the third rinse, additional rinsing must be performed until the drum is completely clean.

All eligible containers must be residue free and have this logo to be accepted for recycling

**5** Clean the outside of the drum to remove any spills or drips that occurred during use.

**6** Once clean, turn the drum upside down and leave to drain and dry fully in a clean, dry area. After drying, store the drum in a secure, covered place to prevent contamination until drop-off.

**7** Remove caps and closures before drop-off. These items are made from incompatible plastics and cannot be recycled through drumMUSTER.

**8** Take your clean drums to your nearest drumMUSTER collection site for recycling.

For more information about the program, collection statistics or guidance on eligible drums, please visit the Agsafe website.

## Emergency Broadcasting and the ABC Radio Perth AM - FM Transition

As you may have heard, ABC Radio Perth has (as of Monday Feb 23) moved from 720 AM to 102.5 FM.

The good news is the community isn't losing access to ABC Radio, as they will still be able to tune into their local regional station, and if they're so inclined ABC Radio Perth will always be available on digital platforms online or through the ABC Listen App.

The finer details:

- 102.5 FM transmitter will be turned on at 7:20am Monday Feb 23
- 720 AM will continue to be available until April 5 to allow listeners to adjust to the change
- Find your local frequency here: [reception.abc.net.au](http://reception.abc.net.au)

*Goomalling Football Club*  
**HEAD TRAINER**

Our club is seeking the services of a head trainer for the  
2026 Mortlock Football League season.

The successful applicant will have the qualifications/skills to be an integral part  
of our game day player support group, supporting our League (reigning premiers)  
and Reserves teams.

This is a paid position and a great opportunity to join a successful club.  
Come and join our team.

Applications and any questions should be directed to Lesley West,  
[goomallingfc.president@gmail.com](mailto:goomallingfc.president@gmail.com) or 0429623201

# Toodyay Dental Clinic

🦷 SUPPORTING HEALTHY SMILES IN OUR  
COMMUNITY 🦷

Toodyay Dental Clinic is proud to continue caring for the families and residents of our wonderful community. Conveniently located on Stirling Terrace, we are committed to providing gentle, professional and reliable dental care for patients of all ages — from children attending their very first check-up to long-time locals maintaining their healthy smiles.

Our friendly and experienced team understands that visiting the dentist can sometimes feel daunting. That's why we take the time to listen, explain your treatment options clearly, and ensure you feel comfortable and supported every step of the way.

We offer a comprehensive range of services, including:

- Routine check-ups and thorough cleans
- Tooth-coloured fillings
- Crowns and bridges
- Root canal treatment
- Dental implants
- Full and partial dentures
- Clear aligner treatment
- Emergency dental care when you need us most

We are passionate about personalised care and maintaining high standards of treatment for every patient who walks through our doors.

Bookings and Enquires:

📍 94 Stirling Terrace, Toodyay
